Report No. VI - ENVIRONMENT AND NATURAL RESOURCES  
COMMENTS ON STYLE, FORM, AND GRAMMAR

Section 1. (1) The Committee added "a" before "clean and healthful", and deleted "the Montana" before environment and added "in Montana" thereafter, in order to preserve what was recalled to be the sense of amendments adopted in Committee of the Whole. Other changes in the section do not alter substance.

Section 2. Deletion of repetition at the end of the second sentence does not alter substance.

Section 3. Reordering and deletion of language do not alter substance. It should be noted, however, that the substantive committee comments appended to subsection (2) were that section 15, Article III, of the present constitution were duplicated verbatim "to preserve the substantial number of court decisions interpreting and incorporating the language."
